ADEDEJI AFOLABI

Frontend Developer
(+234) 8106918387 • afolabiadedeji351@gmail.com

PROFESSIONAL SUMMARY

Frontend developer with two years of production experience shipping Figma-to-code interfaces and internal dashboards for a logistics platform. Comfortable owning a build end-to-end: translating high-fidelity Figma designs into responsive, componentised React/Next.js interfaces, wiring up data tables, forms, filters, modals and charts against real REST APIs, and handing over clean, typed, reviewable source code.

PROFESSIONAL EXPERIENCE

Frontend Developer | Jolo Logistics *Nov 2024 – Present*

- Built the company's marketing landing page from Figma design files using Next.js and TypeScript, achieving 95% Figma-to-production accuracy.
- Architected and built the internal Admin Dashboard from the ground up (React, TypeScript, TanStack Router, TanStack Query, Tailwind CSS, shadcn/ui).
- Designed and implemented the data layer and UI for that build: data tables, multi-step forms (React Hook Form + Zod validation), filters, modals and charts as reusable, typed components within a feature-folder architecture I set up from day one.
- Diagnose and resolve cross-browser/cross-device UI issues, and collaborate directly with backend engineers and designers on API contracts (RESTful APIs, Postman) to keep the dashboard aligned with business requirements.

Frontend Developer | Evendy Services *Apr 2024 – Oct 2024*

- Translated Figma UI/UX designs into fully responsive, production-ready interfaces for event-management and vendor-registration platforms.
- Partnered with backend developers on REST API integration for core business functionality within a cross-functional team.
- Optimised frontend performance and ensured consistent responsiveness across device types and screen sizes.

Laboratory Analyst (NYSC) | Steve Nicholas Nigeria Ltd *Feb 2025 – Dec 2025*

- Conducted quality verification, technical reporting and structured data analysis; supported commissioning of multiple laboratories against tight project timelines.

Quality Control Assistant | Unique Pharmaceuticals *Mar 2022 – Sep 2022*

- Performed chemical analyses and documentation in line with GMP/SOP requirements, supporting quality audits and process improvements.

TECHNICAL SKILLS

Languages & Frameworks: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

Dashboard & UI Tooling: Tailwind CSS, shadcn/ui, TanStack Query, TanStack Router, TanStack Table, React Hook Form, Zod

Tooling & Collaboration: RESTful APIs, Git/GitHub, Figma (Figma-to-code), Postman

Professional: Component architecture, responsive design, cross-functional collaboration, technical communication, debugging & testing

EDUCATION

B.Sc. Pure and Applied Chemistry
Federal University of Agriculture, Abeokuta (FUNAAB), Ogun State | Second Class Honours | 2019 – 2024

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- ALX Africa – Professional Development in Frontend Engineering (2026)
- JavaScript Bootcamp – Advanced JavaScript, DOM manipulation & asynchronous programming (2024)
- Zuri Internship Programme – Frontend Developer Track (2023 & 2024); Frontend Development Bootcamp – React.js & responsive web design (2023)
